

# MILLENNIUM BOSTONIAN HOTEL

## BOSTON, MASSACHUSETTS

- OWNER

Winn Development

- ARCHITECT

Mintz Associates

- CONSTRUCTION COST

\$12,000,000

- GENERAL CONTRACTOR

Suffolk Special Projects

### PROJECT DESCRIPTION

A 3-story partial addition on top of the existing hotel building and a new 8-story building adjacent to the existing hotel building. A steel building frame system with ordinary moment frames and concentrically braced frames was used to support the gravity and lateral loads. Concrete slab on composite steel deck was used for the floor framing. The structure of the new building had to fit in between and utilize the existing concrete columns and walls along three sides while also supporting them laterally.

The additions were to a structure originally designed by our firm.
